

ABHINAV DIXIT

India, Lucknow, 226021 | +44 7587410807 | abhinavdixit.in@outlook.com

Summary

Applied AI Engineer with hands-on experience building **production-grade Generative AI systems, LLM-driven workflows, and automation pipelines** using Python. Proven ability to own AI solutions end-to-end, from ambiguous problem definition through prototyping, deployment, and monitoring. Strong background in **LLMs, RAG, schema extraction, agentic workflows, and business process automation**, with a fintech-ready mindset focused on reliability, safety, and scale.

Skills

Functional Competencies

- Production GenAI Systems (LLMs, RAG, Agents)
- Python Engineering for AI & Automation
- Prompt Engineering & Agentic Workflows
- Schema Extraction & Document Parsing
- Business Process Automation with AI
- Model Evaluation, Monitoring & Iteration
- API Design & Backend Services
- SQL & Data Pipelines
- Cloud & Containerized Deployment
- Stakeholder Communication & Ownership

Technical Skills

- Languages: Python, SQL
- GenAI & ML: LLMs, RAG, Prompt Engineering, Agents, TensorFlow, PyTorch, Scikit-learn
- Data: Pandas, NumPy, FAISS, Vector Databases
- Backend: REST APIs, FastAPI, CLI tools
- Cloud & DevOps: Docker, AWS (foundational), Git
- Tools: Jupyter, Power BI, Excel

Experience

CS Delivery Station Liaison, L3 Amazon	11/2024 to 11/2025 Glasgow, Scotland
• Owned high-impact operational workflows, resolving complex, ambiguous problems across logistics, customer operations, and systems. • Led root-cause analysis on multi-system failures, coordinating stakeholders across fulfillment centres and delivery stations. • Improved case-handling efficiency by >250% through automation-minded process redesign and system optimization. • Demonstrated strong process thinking, replacing manual interventions with structured, repeatable solutions. • Acted as a trusted escalation point, balancing speed, quality, and customer outcomes in high-pressure environments.	
FC Associate Amazon UK	04/2023 to 11/2024 Glasgow, Scotland
• Applied Six Sigma and analytical techniques to reduce process defects by 22.5% in 30 days. • Designed structured resolution hubs that cut issue resolution time by 40%. • Built operational dashboards and KPIs to monitor performance and drive continuous improvement.	
Business Analyst MRF Retail Store	09/2015 to 07/2022 Lakhimpur Kheri, India
• Delivered analytics-led business transformation across inventory, logistics, and customer operations. • Built automated feedback and reporting systems, expanding market share from 15% to 20% and generating \$300K+ quarterly revenue uplift. • Implemented data-driven inventory management solutions improving accuracy from 92% to 98% and reducing processing time by 40%. • Produced executive-ready dashboards and reports to support pricing, sales optimization, and operational decisions.	
Software Engineer Smart Wireless Computing	07/2013 to 05/2015 Bengaluru, India
• Built production-grade software systems for Qualcomm Snapdragon platforms. • Reduced system latency by 73% through profiling, optimization, and refactoring.	

- Developed backend components, interfaces, and testing workflows with a focus on reliability and scale.
- Delivered customer-facing solutions under real-world constraints.

Education

MSc Technology Policy and Management: Public Policy University of Strathclyde

09/2022 to 09/2023
Glasgow, UK

- Master's Graduate: Merit Degree
- Dissertation: Analyzing the essentials for Glasgow City to enhance its transport infrastructure for electrical vehicle charge points to better encourage shifts towards sustainable mobility - Sustainability & Net Zero Alignment.

B.E. Information Science and Engineering VTU

05/2009 to 05/2013
Bengaluru, India

- Bachelor's Graduate: First Class with Distinction
- Dissertation: Interactive media Suite on Qualcomm Quadcore Snapdragon S4 Processor

Certification

- Advance Cloud Support Engineer Diploma with CompTIA:
Coursework: Cloud Essentials+, Cloud Security Fundamentals, MS-900, Azure Fundamentals, AWS Cloud Practitioner, Cloud+, Security+, Cloud Security Administration, IT Specialist-Python, and AWS Certified SysOps Administrator
- EITCA/AI Artificial Intelligence Academy consists of the following individual European IT Certification Programmes in AI (all implemented fully online):
Coursework: Google Cloud Machine Learning, Google Vision API, TensorFlow Fundamentals, Machine Learning with Python, Deep Learning with TensorFlow, Deep Learning with Python and PyTorch, TensorFlow Quantum Machine Learning, Advanced Deep Learning, Advanced Reinforcement Learning, Deep Learning with Python, TensorFlow and Keras, Google Cloud Platform, and Python Programming Fundamentals.

Independent Projects

Meta-Agent: Text-to-Workflow (and Agent) Implementation

Role: Creator & Engineer

Tech Stack: Python, LLMs, JSON Schema, FAISS, CLI, Mocked ERP/Email integrations, LM studio

Description:

- Built a production-style GenAI system converting unstructured specs (PDF/TXT/YAML) into executable workflows.
- Designed schema extraction pipelines, validation layers, and auto-repair logic for safe execution.
- Implemented agentic workflows with tool adapters (ERP, email, mocked services).
- Designed system to move from prompt to retrieval to execution to monitoring.

<https://github.com/abhindix/workflow-pipeline>

LSTM Stock Prediction: Predicting next-day equity returns using stacked LSTM networks on historical OHLCV data

Overview: Developed a deep learning pipeline in Python/TensorFlow to forecast next-day stock returns. Implemented stacked LSTM networks trained on Yahoo Finance OHLCV data, with evaluation against baseline trading strategies.

Key Contributions:

- Built end-to-end ML pipelines for time-series forecasting.
- Designed evaluation frameworks (RMSE, MAE, directional accuracy).
- Automated ingestion, preprocessing, and validation.

<https://github.com/abhindix/lstm-stock-prediction>

Achievements and Awards

- 73.53% operational uplift: highest regional improvement.
- 22.5% defect reduction through risk & control enhancements.
- Eliminated 10 to 0 high-impact errors in <48 hours.
- 99.8% SOP compliance, reducing process risk exposure.
- Delivered improvements driving £300K quarterly uplift.
- Received multiple awards: Best of the Best DSL (3×), DEI Champion, Best Project Award.

Hobbies and Interests

- NCC 'A' certificate with 'AYE' Grade, 2006, Ministry of Defence, Government of India
- Core committee member of 'Acharya Habba' and 'Steigen Lane' Coordinator, 03/2012
- Delegate of Australia at International Model United Nations Conference of UNDP, 2021

Engagement

- Part of Engagement Committee and Asian at Amazon Ambassador - POC
- Planned and coordinated associate engagement activities for cultural events, fostering an inclusive and vibrant workplace culture.
- Championed associate involvement by initiating a survey-based approach to curate meaningful and culturally diverse workplace events.
